

OSMA shoe, boot and glove dryer featuring ventilation **VACU „elegance”**

The VACU is the dryer that not only dries shoes, boots and gloves, but simultaneously vents the room via the integrated air suction. Parallel to airing, the handles are warmed up individually by direct heating (warm air, not hot air), leading to an optimal drying of footwear.

sample picture: Vacu 10 for 10 pairs of shoes and boots!

Advantages

- easy to position low-, children's- and sport shoes, and gloves on the handles
